Letter from the High Court of Judicature at Fort William in Bengal, No. 1248, dated the 20th March 1900.

RESOLUTION.—The Governor-General in Council has had under his consideration a case which occurred in August last in the Saran district, of which Chapra is the head-quarters, and which has attracted much public attention and comment. The salient facts, about which there seems to be little or no dispute, are briefly summarized below. At the time of their occurrence, Mr. Twidell, an officer of not quite five years' standing, was temporarily officiating as Magistrate and Collector of the district. Mr. Bradley, an officer of about the same service, was his District Superintendent of Police, and had for his assistant Mr. Corbett, a probationer, who had been for less than two years in the department. Mr. Simkins was the District Engineer. On the district staff was Maulvi Zakir Hossein, a Deputy Magistrate of 27 years' standing.

2. On the 19th August Mr. Corbett and Mr. Simkins went out to the village of Phulwaria, in order to supervise and obtain labour for the repair of certain embankments which protect the surrounding country from dangerous and destructive floods, and the responsibility for maintaining which lies upon the local landholders. In the village they met one Narsingh Singh, a police constable, on sick leave from Jalpaiguri. When required to assist the authorities, this man was insolent to Mr. Corbett, who assaulted him slightly. Narsingh Singh then ran at Mr. Corbett, who knocked him down in self-defence. The man then called upon the villagers, of whom a considerable number were standing round, to help him (*lathi chalao*), upon which Mr. Corbett thrashed him severely while he was down, and Mr. Simkins gave him several cuts with his cane. One of the villagers threatened Mr. Simkins with a *lathi*, but was disarmed by him.

3. On the next morning, which was a Sunday, Narsingh Singh attended at the Chapra hospital to be treated as an out-patient for a certain disease. The Civil Surgeon noticed that he had two black eyes, and, upon asking how he got them, was told that he had been beaten by the Assistant District Superintendent of Police. It appears that the occurrence of the previous day had been discussed in the station; and after leaving the hospital, the Civil Surgeon mentioned to both Mr. Corbett and Mr. Bradley that "Corbett's friend" was in the station. Mr. Bradley immediately sent an Inspector to find the man; but meanwhile Mr. Corbett had himself gone to the hospital, and found Narsingh Singh, whom he brought to Bradley's house. There Mr. Bradley give him his choice between resigning and being prosecuted; and on his refusing to resign, the two police officers took him off to Mr. Twidell's house, where, after consultation with the latter, Mr. Corbett lodged a formal complaint against him under section 353, Indian Penal Code, of assault to deter a public servant from the discharge of his duty, a non-compoundable but bailable offence, for which the police may arrest without warrant. Mr. Twidell accepted the complaint and directed a prosecution, and Narsingh Singh was forthwith placed in confinement. Before the formal complaint was presented, Mr. Bradley had again asked Narsingh Singh whether he would resign, and the latter had agreed to do so; but Mr. Bradley then refused to accept his resignation.

4. Narsingh Singh was tried by Maulvi Zakir Hossein, and eventually convicted of abetment of simple assault (section 352), and of insult intended to provoke a breach of the peace (section 504), and sentenced to two months'

rigorous imprisonment. At one stage of the trial Mr. Bradley was allowed to assist in the prosecution while sitting on the Bench; and the Deputy Magistrate twice consulted the District Magistrate regarding its conduct, on one occasion in consultation with Mr. Bradley also. Narsingh Singh appealed to the Sessions Judge, Mr. Pennell, and his counsel filed, together with his appeal, an affidavit containing serious allegations against the officers concerned with regard to their conduct in the case. Mr. Pennell called upon Mr. Twidell and, through him, upon Maulvi Zakir Hossein, for an explanation in respect of these allegations. Mr. Twidell declined to submit any explanation; and thereupon Mr. Pennell summoned Messrs. Twidell, Bradley, Corbett, and Simkins, the Maulvi and the Civil Surgeon, as witnesses under section 428 of the Code of Criminal Procedure. Finally, he accepted the appeal, quashed the conviction, and set aside the sentence. And in his judgment he commented at great length and with great severity upon the conduct of all concerned.

5. The Government of Bengal then took up the matter. The conclusions at which His Honour the Lieutenant-Governor arrived, and the action which he took, are set forth in the following extracts from the second letter read in the preamble:—

"Mr. Pennell's strictures on the conduct of the officers are substantially as follow:—

(1) that Mr. Corbett did not receive from Narsingh Singh provocation justifying the violence which he used;

(2) that the prosecution of Narsingh Singh was instituted because it was feared that he would otherwise himself proceed criminally against Messrs. Corbett and Simkins;

(3) that Mr. Twidell very improperly interfered by repeatedly discussing the case against Narsingh Singh with Maulvi Zakir Hossein in the course of the trial; and

(4) that Maulvi Zakir Hossein permitted himself to be influenced by Mr. Twidell, and convicted Narsing Singh on entirely inadequate grounds.

"Both Mr. Twidell and Maulvi Zakir Hossein have asserted their innocence of any improper motive throughout the proceedings in which they were concerned. It is unnecessary to refer to their explanations in detail or to analyse the evidence on which the comments of the Sessions Judge were based. The Lieutenant-Governor's opinion on the various points is clear, and I am now to state it for the information of the Government of India. The orders issued by Mr. Twidell for the repair of the embankments were dictated by a laudable desire on the part of a district officer to prevent the risk of inundations, which would have caused serious loss to the people. It lay on the zamindars and villagers to do what was needed to strengthen the embankments, any wages required for work done being payable by the zamindars, and the deputation of Messrs. Corbett and Simkins to the spot to induce the people to assist was legitimate. The Lieutenant-Governor considers, however, that in the altercation and *fracas* which took place with Narsingh Singh Mr. Corbett was seriously to blame. He was hasty in first striking the man, and subsequently gave him a severe beating. The man was in a bad state of health, and His Honour is unable to accept the plea that the provocation he gave in any manner justified the treatment to which he was subjected. With regard to the prosecution instituted against Narsingh Singh, the Lieutenant-Governor condemns the conduct of Messrs. Corbett and Bradley, and of Mr. Twidell in particular. Mr. Twidell acted with extreme want of judgment and imporpriety in ordering the prosecution, being aware specially that Narsingh Singh had been beaten for his alleged opposition to Messrs. Corbett and Simkins. In the course of the trial also Mr. Twidell's action was open to most serious comment. Subordinate Magistrates may sometimes seek the advice of the District Magistrates in difficult cases, while preserving their own judicial independence. Such consultations between judicial officers are presumably not unknown even in higher Courts. In the present case, however, Mr. Twidell had himself directly ordered the prosecution, and the impropriety of his entering into any discussion of the case with the Deputy Magistrate should have been patent to him. As regards Maulvi Zakir Hossein, the Lieutenant-Governor considers that his conduct of the trial betrayed lamentable weakness of judgment and character. The conviction of Narsingh Singh was bad, and the sentence passed altogether excessive for the offence charged. Mr. Bradley had a smaller share in the case than the officers already named, but the Lieutenant-Governor regards him also as deserving of censure for aiding in the institution of the prosecution against Narsingh Singh and for taking an unnecessarily prominent part in the conduct of the prosecution during the trial.

"The Lieutenant-Governor greatly regrets that the officers of the Saran district should, by their proceedings in this case, have brought themselves under the condemnation which must thus be passed upon them. Serious notice of their conduct is necessary, and His Honour has issued the following orders. Mr. Twidell will be barred from promotion to an Officiating Magistrate-Collectorship for one year. Mr. Corbett, who has become entitled to

confirmation as an Assistant Superintendent of Police of the second grade, on completely passing the departmental examinations, will not be confirmed for the same period. An expression of the Lieutenant-Governor's severe displeasure will be conveyed to Mr. Bradley: and Maulvi Zakir Hossein will also be admonished. The latter is an old officer who has hitherto borne a blameless reputation."

6. As soon as Mr. Pennell's judgment was brought to the notice of the Government of India, they requested the Bengal Government to furnish them with a full report upon the case. When that report was received, it appeared that the matter had not been completely dealt with, inasmuch as the action of all the parties concerned had not been equally considered. With regard to the judgment of the Sessions Judge, they thought it desirable to invite the opinion of the High Court of Calcutta and to enquire whether the Honourable Judges contemplated taking any action with regard to it. The Honourable Court has now replied that it "is of opinion that certain passages in the judgment are expressed in terms which the Judges cannot but regard as intemperate, and conspicuously wanting in that sense of dignity and self-restraint which ought to characterize judicial utterances," and that an expression of the disapproval of the Court has been communicated to Mr. Pennell.

7. The Governor-General in Council regards this case as one of unusual importance. It exemplifies in an aggravated, but typical, form several evils which from time to time force themselves upon the attention of Government, and which it is upon every ground of the utmost importance to restrain. The action of the executive and of the judicial officers has conduced to give to the facts a notoriety so great as to fall little short of a scandal, and to render it desirable that the Supreme Government should itself deal with the matter

8. With regard to the *fracas* that occurred on the 19th August, the Governor-General in Council concurs in the conclusions of His Honour the Lieutenant-Governor. Whatever the provocation received, Mr. Corbett's action in first assaulting Narsingh Singh was undignified and improper. And if, as appears to have been the case, he knocked him down in self-defence, his conduct in severely thrashing a man who lay at his mercy was lacking in any justification. In judging of his conduct, moreover, it is impossible to forget the fact that he was an English officer of Government; and that the position of such officers imposes upon them a very special responsibility towards the inhabitants of the country, in whose eyes they represent, each according to his degree, the Government of Her Majesty. It is incumbent upon any one so placed to exercise a very special self-restraint in his dealings with the people, and it is necessary that he should be judged in such matters by a specially strict standard.

9. But it is the proceedings which followed after the quarrel of the 19th August that constitute the really serious element in the case. On the 19th a very young officer lost his temper and his judgment, and thrashed a man who had been insolent to him and had attempted to attack him. On the 20th, if the conclusions of the Judge who heard Narsingh Singh's appeal are to be accepted, the Chief Magistrate of the district conspired with his two police officers to screen Mr. Corbett from the consequences of his fault, by prosecuting the man whom the latter had beaten for what was at most a merely technical offence, and for which ample, if not excessive, punishment had already been inflicted; while at a later stage, the District Magistrate and District Superintendent of Police brought improper influence to bear upon the Subordinate Magistrate who was trying the case. No more serious charge could be laid at the door of the officers charged with the administration of criminal police and justice in a district. The Governor-General in Council has therefore examined and considered the facts with the most scrupulous care, and the most anxious desire to do no injustice to any of the parties concerned; and the more so, because he gathers from the Lieutenant-Governor's silence on the point, that His Honour does not accept Mr. Pennell's conclusions, at any rate as to the conspiracy.

10. The result of this examination has been to leave upon the mind of the Governor-General in Council the impression that Messrs. Bradley and Corbett were not so much animated in laying a complaint against Narsingh Singh by a desire to vindicate their outraged authority or to uphold the discipline of the police force, as they were by a desire to put further pressure upon Narsingh

Singh. Such conduct on their part amounted, in the opinion of the Governor-General in Council, to little short of persecution, and was a flagrant abuse of the authority with which as police officers they were entrusted.

11. As regards Mr. Twidell's part in the matter, Mr. Pennell's assertion that he was a party to a conspiracy in order to shield his friends, would, if it were accepted, involve a culpability on his part by so much greater than theirs as his office and responsibilities were higher. The circumstances are not free from doubt. But the Governor-General in Council, while holding that Mr. Twidell's conduct was both unwise and improper, is prepared to believe that in directing the prosecution he acted in good faith.

12. His subsequent action, in advising the Deputy Magistrate as to the conduct of the case, was unfortunately not less indiscreet. The Governor-General in Council agrees with His Honour the Lieutenant-Governor in thinking that Subordinate Magistrates may properly and usefully seek the advice of the District Magistrate on questions arising in cases that are before them, without in any way forfeiting or impairing their judicial independence. But it is essential that the District Magistrate should scrupulously abstain from such consultation, whenever there is possible room for the suggestion that any personal element may colour his advice. The question of the union of judicial and executive functions is now under the consideration of the Government of India, and is one upon which much discussion has already been expended. It will be conceded, however, by all parties that when the two functions are united in the same hands it behoves those who exercise them to abstain, not only from any abuse, but also from any semblance of abuse, of the powers thus conferred upon them, and to avoid, with the most scrupulous care, any action that may give reasonable ground for the allegation that the objects of the executive are improperly permitted to influence the independence of the judicial branch of the administration. Both branches have one common object—the good government of the country, and the peace and prosperity of the people; and it is regrettable that there should be either confusion or collision of functions in aming at this end.

13. The Government of India do not propose to interfere with the orders which the Bengal Government have passed in the case of the executive officers concerned. The punishment inflicted, if not adequate to the offence as it is regarded by the Governor-General in Council, is at least substantial. And His Excellency in Council cannot but regard the lamentable occurrence which he has been discussing, as in some degree due to the fact that there was no officer of age and experience present in the district staff, whose more mature judgment might have prevented them. That this was so is explained by the Bengal Government to have been due partly to an unavoidable accident, but mainly to the regrettable shorthandedness of the executive staff, which is now rapidly disappearing in consequence of increased recruitment.

14. There remains the action of Mr. Pennell, the Sessions Judge who heard Narsingh Singh's appeal. The Governor-General in Council has read with entire agreement the opinion expressed by the High Court upon the nature of Mr. Pennell's judgment. It appears to His Excellency in Council to have been affected by an animus which there was little attempt to conceal. The issue before Mr. Pennell was whether Narsingh Singh had or had not been rightly convicted and sentenced. But it is clear that Mr. Pennell was even more concerned with the conduct of the executive officers than with the guilt or innocence of Narsingh Singh, and that those officers who had been summoned as witnesses virtually occupied the position of accused, though put on oath to criminate themselves. While it is inevitable that a Judge should comment upon the conduct of the executive in so far as it bears upon the issue which he is trying, and while it is proper that he should bring to the notice of superior authority any abuse of power which may seem to him to have taken place, there is yet a corresponding responsibility imposed upon him for the discreet and proper use of the liberty of inquiry and of comment which is essential to the due discharge of judicial duties. In the present case the Governor-General in Council is in concurrence with the High Court in thinking that this discretion was altogether ignored.

15. Such are the conclusions to which the Governor-General in Council has been led regarding a case which, while discreditable to the majority of the officers concerned, has also cast discredit upon the Government to which those officers belong. Cases of such a serious nature are fortunately of rare occurrence; but when they do occur the authority and prestige of Government are materially weakened. It is to be hoped that the public attention which has been called to the present incident, and the notice which the Government of India have been compelled to take of the matter, may prevent the recurrence of similar events in the future, and may be productive of good in vindicating that high standard to which it is essential that British administration in this country should steadily conform.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

South.—The southern boundary commences at the mouth of the Goon doong stream of Ookhia Goon-doong and proceeds eastward along that stream to its source; thence in a straight line across the watershed to the Toung-byoo or Toung-broo stream; and thence

up that stream to its source in the Wayla-toung peak, or Sugar-loaf hill. From the Wayla-toung peak or Sugar-loaf hill, the boundary runs northwards for about five-and-a-half miles along the Wayla-toung ridge; thence in an easterly direction for about two miles along the See-see-toung spur to the Bajbukia Khal opposite the Tha-walee toung bungalow on the high road from Chittagong to Akyab; thence still eastwards for about 12 miles, over a succession of ridges following the northern limits of Mro-thit (northern) Gyokeship, meeting the Ko-ma-toung ridge (a continuation of the Choung-doung range) about four-and-a-quarter miles north-west from Ko-ma-toung survey station; thence southwards for about two-and-a-half miles along the Ko-ma-toung ridge to a point where the district boundary leaves the Northern Mro-thit Gyokeship; thence in a south-easterly direction along the tortuous Kring-dyu-toung ridge, following the northern limits of the Ching-toung hill Tract to the Koo-doung or Koo ma-doung survey station; thence north-east along low ridges for about three-and-a-quarter miles; and thence east for about one mile, south-east for about one-and-a-quarter miles, and again north-east for about two miles, meeting the crest of the Lee-doung-toung range and the north-western boundary of the Arakan Hill Tracts about three-and-a-half miles south from Lee-doung-toung survey station—*vide* Government of India, Revenue and Agricultural Department, Notification No. 254R., dated the 16th November 1881.

East.—The eastern boundary commences at the spot where the southern boundary, as described above, terminates, and proceeds northwards along the Lee-doung-toung range to Lee-doung-toung hill station; thence along the same range to Mee-doke-toung survey station and peak; thence northwards along the crest of the Mee-doke-toung range to the second Mee-doke-toung survey station; and thence, still northwards, along the Mee-doke-toung range, for about eight miles, to the point where it meets the northern boundary of the Arakan Hill Tracts, which runs due east in a straight line to the junction of the Kala and Kaladan rivers; thence it proceeds along the watershed of the Mraneedong range of hills until it meets the hill station of Keokradong, thence following the watershed of the Weybong range until it turns north-eastward to meet the Thega Khal river at the source. From this point it proceeds along the course of the Thega Khal river to the junction with the Karnafuli river; thence westwards along the Karnafuli river to the Harin Khal (locally known as the Baraharina river); thence along that river to the source, and from that point by a straight line eastwards to the Tulenpui river; and thence along that river up to the hill station Betleing Southern Peak on the Jampai range of hills—*vide* Government of India, Revenue and Agricultural Department, Notification No 254R., dated the 16th November 1881, and also Bengal Government Notification No. 2095P., dated the 25th August 1898.

NOTIFICATION—No. 12 P.D.

The 1st May 1900.—In exercise of the power conferred on him by section 18 of the Chittagong Hill Tracts Regulation, 1900, the Lieutenant-Governor is pleased to lay down the following rules for the administration of those Tracts:—

RULES FOR THE ADMINISTRATION OF THE CHITTAGONG HILL TRACTS.

ADMINISTRATION OF CIVIL JUSTICE.

THE administration of civil justice shall be conducted in the most simple and expeditious manner compatible with the equitable disposal of the matters or suits.

2. The officer dealing with the matter or suit will, in the first instance, endeavour, upon the *viva voce* examination of the parties, to make a just award between them. Witnesses should not be sent for, except when the officer is unable without them to come to a decision upon the facts of the case

3. The record shall contain the following particulars, namely, the name of the plaintiff, the name of the defendant, the nature of the claim or other matter in litigation, an abstract of the plaintiff's case, an abstract of the defendant's case, an abstract of the depositions of the witnesses (where witnesses are examined), the grounds of the decision, and the order signed and dated.

4. Court fees shall not be levied in any matter or suit.

5. For the service of processes fees shall be payable at the rate of six annas per diem, according to the number of days the journey taken from the nearest police station.

6. In the issue and enforcing of processes and the execution of decrees, the officers shall be guided, as far as may be, by the provisions of the Code of Civil Procedure.

XIV of 1882.

In the case of processes and decrees received from Courts of other districts, the following rules shall be observed:—

(1) The Superintendent shall serve all processes and execute all decrees which are sent to him for service or execution by Civil Courts outside the Chittagong Hill Tracts Courts, and which are accompanied —

(*a*) by an English letter explaining, in the case of a process, the nature of the suit, and forwarding, in the case of a decree, a copy of the judgment; and

(*b*) by the fees prescribed by the High Court.

(2) In any case in which, owing to boat-hire or the carriage of rations or similar causes, the cost of service or execution will exceed the fees received, the Superintendent will stay service and will state the cost to the Civil Court concerned, and request that the requisite amount be forwarded.

(3) In any case in which the Superintendent finds that the process should not be served, or that the decree should not be executed, he will record his reasons for so finding, and will at once forward them to the Civil Court concerned, and will retain the process or decree and fees till final orders are passed.

(4) In either of the cases provided for by rules (2) and (3), the Civil Court concerned may refer the Superintendent's orders directly to the Commissioner of Chittagong, and the Commissioner shall pass orders on such reference and communicate them directly to the Civil Court concerned. If any Civil Court desires to make a reference from the Commissioner's orders, such reference shall be addressed to the District Judge for the orders of Government.

(5) The Superintendent will serve the processes and execute the decrees referred to in these rules by the agency of his nazir, or of the circle Chiefs, or of the registered headmen, according to the rank and status of the person on whom the process is to be served or who is the judgment-debtor. The police may not be employed in such service or execution, except to convey the sealed orders to the agent selected for service or execution.

(6) The Superintendent will, in every case, report on the service of the process to the Civil Court concerned, and, as regards the execution of decrees, will keep up communication with such Court till the case is disposed of.

7. The rate of interest decreed by the Courts shall in no case exceed 12 per cent. per annum.

8. Deeds which must be registered under the rules following for the registration of deeds shall not be allowed to be filed in any suit unless they have been duly registered.

9. Suits shall be admitted only on registered bonds in all cases in which registration would be compulsory if the transactions out of which the claims arise were completed by the execution of bonds.

10. All orders passed in civil suits shall be appealable to the Commissioner, who may decide by whom the costs in any such appeal shall be paid.

LEGAL PRACTITIONERS AND AGENTS.

11. No legal practitioners shall be permitted to appear in any matter; and, in all cases where the Chiefs are personally concerned, they are, as far as possible, to be personally dealt with. Agents are only to be allowed when the personal presence of the Chief is inconvenient or impracticable, and they must not be legal practitioners.

REGISTRATION OF DEEDS.

12. Deeds of the following kinds shall be registered, provided that the property to which they relate is situated, or the work or act to which they relate is to be performed, within the Chittagong Hill Tracts:—

A. Deeds of sale, gift, partition, or mortgage of immoveable property.

B. Leases of immoveable property for any term exceeding one year.

E. Wills and authorities to adopt.

13. Deeds not included in the above list may or may not be registered, and they will not be inadmissible in Court by reason of non-registry.

14. No engagement to do anything illegal, immoral, contrary to public policy or manifestly impossible, will be registered.

15. If any document duly presented for registration is in a language which the Registering Officer does not understand, and which is not commonly used in the district, he

shall refuse to register the document, unless it is accompanied by a true translation into a language commonly used in the district, and also by a true copy.

16. It shall be in the discretion of the Registering Officer to refuse to accept for registration any document in which any blot, interlineation, blank, erasure, or alteration appears, unless the persons executing the document attest, with their signatures or initials, such blot, interlineation, blank, erasure, or alteration; and it shall be his duty, at the time of registering the document, to make a note in the register of such interlineation, blank, erasure, or alteration.

17. No instrument relating to immoveable property shall be accepted for registration unless it contains a description of such property sufficient to identify the same.

18. No deed, other than a will or authority to adopt, shall be accepted for registration if not presented to the proper officer within three months of its execution, unless good cause for the omission be shown to the satisfaction of such officer, in which case, if the delay in presentation does not exceed four months, the deed may be registered on payment of four times the ordinary fee.

19. Any will or authority to adopt may be registered at any time.

20. The functions of the Registering Officer shall be performed by the Superintendent or by such other officer as the Local Government may appoint for the purpose.

21. Every document to be registered shall be presented by some person claiming under or executing the same; but no document shall be registered unless the persons executing it or their representatives or assigns or agents (where agents are recognized under rule 22), appear before the Registering Officer and admit the execution. Any person refusing to attend when sent for by the Registering Officer, or refusing to take oath, or answer questions put, or sign statements made by him, or making any false statement to the Registering Officer, shall be punishable under the Indian Penal Code.

XLV of 1860.

22. Agents will, as a general rule, be allowed to conduct registration only in behalf of (1) Hill Chiefs and persons of high rank; (2) European gentlemen; and (3) *pardu-nashin* women. Only agents who are of known respectability, and are personally acquainted with the facts of the case, will be permitted to conduct registration.

23. A fee, as follows, must be paid before registry:—

	Annas.
For a lease to a cultivating raiyat	2

For all other deeds, including those registered under rule 13 of these rules	8

24. Persons may be allowed to inspect the books in which deeds are copied, or to take a copy of a deed on payment, in advance, of a fee of eight annas, besides any necessary charge for copying.

25. The registering officer will, before he registers a deed, satisfy himself that the parties appearing before him are really those whom they profess to be, and that they clearly understand the nature and purport of the deed.

26. He shall then record on the deed an endorsement in the following form:—

'At (the hour) on this (the date, month, and year)
, A.B., son of , resident of
and E.F., son of , resident of , recognized by me,
(or) duly identified by H., resident of , appeared
before me and acknowledged their execution of this deed, and satisfied me that they fully understood its purport.

27. The deed, with the endorsement, shall then be copied without delay into a book previously paged and signed by the registering officer. The copy shall be attested by the registering officer, and the original shall then be returned to the party entitled to receive it.

28. The registering officer shall keep in a separate book a memorandum, in order of dates, of all deeds registered and refused registry, as follows :—

Date of registry or refusal of registry.	In what book and in what page registered, or for what reasons registry was refused.	Names and residences of parties.	Nature and date of deed.

29. When a register into which deeds have been copied is filled up, an alphabetical index of the parties to the deeds it contains shall be appended to it.

30. All actual and necessary expenses connected with registration shall be defrayed from the fees realized, and any surplus not required for this purpose shall be disposed of as the Government shall from time to time direct. A regular account of receipts and expenditure shall be kept by the registering officer and submitted to the Commissioner for approval and countersignature once a quarter

III of 1877.

32. The registry book shall be inspected and countersigned by the Commissioner as often as may be found convenient.

33. In any case where registration is refused on the ground that the party who is said to have executed the deed denies his having done so, any party claiming under the deed may sue in the court of the Superintendent within three months of the order of refusal for a declaration of his right to have the deed registered The registering officer shall be no party to such suit, and a copy of his order of refusal, properly attested, shall be *primâ facie* proof that the reason of refusal to register was as therein described. The document in dispute shall be admissible as evidence in this suit, anything in these rules contained notwithstanding.

THE LAND.

TRANSFERS, PARTITIONS, AND SUB-LETTING.

34. All lands held for plough cultivation on lease from Government, under whatever rules they have been or may be granted, are subject to the condition that they cannot be sub-let or transferred, except on hereditary succession or with the consent of the Commissioner. No partitions can be made without the consent of the Commissioner. For a tenant to temporarily make over his holding to another person in the case of illness, incapacity, minority, absence on a journey or in the like exigency, is not to sub-let; but in no such case can the tenant recover from his substitute or trustee a higher rent than he has himself to pay.

CIRCLE DIVISIONS.

35. The Chittagong Hill Tracts comprise the following circles, the boundaries of which are well known and are not in dispute—

(*i*) the several Government forest reserves;
(*ii*) the Bohmong's circle, including the tract hitherto known as "Sungoo Subdivisional Khas Mahal;"
(*iii*) the Chakma Chief's circle, including the tract hitherto known as "Sadar Subdivisional Khas Mahal;"
(*iv*) the Mong Chief's circle.

TALUK DIVISIONS.

36. The 33 blocks which were formed in 1890 for the census of 1891 have been constituted permanent divisions and are called taluks. They lie as follows in the three circles :—

Bohmong's circle	...	...	...	...	18 blocks.
Chakma Chief's circle	...	...	...	...	9 „
Mong Chief's circle	...	...	...	...	6 „

MAUZAS.

37. The taluks are subdivided into mauzas. A mauza will ordinarily contain not less than one-and-a-half and not more than 20 square miles, including hill, wood, and

waste. Wherever there is plough cultivation a mauza will be formed, and its external boundaries laid down on the map. Wherever there is a permanent village, even without plough cultivation, a mauza will be similarly formed. The remaining mauzas will be formed as circumstances allow, and, till defined, will be known as the undefined mauzas.

ADMINISTRATION OF THE CIRCLES AND MAUZAS.

38. The three Chiefs—the Chakma Chief, the Bohmong, and the Mong Chief—are charged with the administration of the respective circles, and every person residing or cultivating within a circle is subject to the jurisdiction of its Chief, with the exception of Government officers and their families, traders and shop-keepers in bazars, and lessees of fisheries and *garjan kholas*. The existing headmen are in charge of the administration of the mauzas. Where they are wanted, headmen will be appointed by the Superintendent in consultation with the Chiefs and the inhabitants of the mauza. Every person, with the exceptions aforesaid, residing or cultivating within a mauza, will be subject to the authority of its headman.

COLLECTION OF THE RENTS.

39. The rents in each mauza will be paid to the headman. Every householder residing or cultivating within a mauza is liable to pay rent to the headman, and there may be no remission of that liability, unless sanctioned by the Superintendent. The headman will collect rents under the control and authority of the Circle Chiefs. The Chief and the headman will receive commission on the collections at such rates, respectively, as may from time to time be sanctioned by the Government.

ADMINISTRATIVE POWERS OF THE CHIEFS AND HEADMEN.

40. Except in the cases mentioned at the end of this rule, the Chiefs will regulate the affairs of their circles and the action of the headmen within them, with powers of fine, of enforcing restitution, and of imprisonment. Similarly, the headmen will regulate the internal affairs of their mauzas, with powers of fine up to Rs. 25, of enforcing restitution, and of detention till the Superintendent's orders are received. The Superintendent will have general revisional jurisdiction over the exercise of all these powers, and will continue to receive from the police information of the occurrence of cases.

Excepted cases referred to above.

(1) Offences against the State, against Government servants, or against public justice.
(2) Riots in which grievous hurt has been caused or deadly weapons have been used.
(3) The following serious offences against the person, namely, murder, culpable homicide, voluntarily causing grievous hurt, wrongful confinement, rape, abduction, kidnapping, and unnatural offences.
(4) Extortion, robbery, dakaity, lurking house-trespass, or house-breaking when the property taken exceeds Rs. 500 in value.
(5) Forgery.
(6) Offences under Chapter IV of the Chittagong Hill Tracts Regulation, 1900.
(7) Any case or class of cases which the Commissioner may specify in this behalf.

THE RENT.

41. The rent is of four kinds, viz.,—
(*i*) the existing joom rent and *begar*;
(*ii*) the plough cultivation rent;
(*iii*) ground-rent for premises used for other than agricultural purposes (shops, &c.);
(*iv*) the grass and *garjan khola* rent.

JOOM RENT AND BEGAR.

42. (*a*) Every joomia, who has by custom to pay joom rent, must pay the joom rent for the Government to the Chief in whose circle he resides, to be collected by the headman within whose mauza he resides. If any such joomia jooms in a different circle or mauza from that in which he resides, he must, in the case of a different circle, pay the full joom-tax for that joom in addition to what he has to pay to his Circle Chief; and in the case of a different mauza in the same circle, he must pay half the full joom rent to the headman of that mauza, in addition to the full rent which he has to pay to his own headman. Plough cultivation gives no exemption from joom-tax to a man who jooms.
(*b*) The joom book must show separately the jooms and joom-tax for each mauza.

THE PLOUGH RENT.

43. The gazetted officers of Government, the Chiefs, and the headmen may grant to any suitable person wishing to open plough cultivation the requisite authority to do so, specifying the terms.

The plough rent will be collected by the headman under the control and superintendence of the Chief, and it may be paid direct to the Government officers or through the Chief, as is found most convenient in different cases. The headman may assign to any suitable raiyat as much land as it is within the raiyat's power to cultivate himself. For the first three years it will be rent-free. Thereafter it will be assessed by the Superintendent, and the rate once fixed will not be altered for 10 years. The headman will frame a rent roll (*jamabandi*) for all plough cultivation in his mauza, which, when revised by the Superintendent, will form the basis of the demand. These rent-rolls will be examined, when possible, on the spot every year. Plough cultivation held under leases will, when not forfeited, be included in the rent-roll on the terms of the lease. When the lease conditions have been violated, the lease will be cancelled and the land settled with the actual cultivator as if no lease had been given.

NON-AGRICULTURAL RENTS AND BAZARS.

44. The rents for non-agricultural sites will be fixed by the Superintendent, and when so fixed will be entered on the rent-roll and distributed in the same way as the plough cultivation rent. But this rule does not apply to the cases of bazars, which may be separated by the Superintendent from the mauza and settled by him, and managed either through the headman or direct, as he sees fit.

GRASS AND GARJAN KHOLA RENTS.

45. The grass *kholas* will be settled by the Superintendent as hitherto, either yearly or for periods of not more than 10 years in any case, and when settled their rents will be realised separately and will not be added to the rent-roll or distributed like the rents for plough cultivation and non-agricultural sites.

SERVICE LANDS.

46. In every mauza 50 acres of the best arable land, in one block or in area or areas as nearly approaching 50 acres as may be practicable, will be demarcated, recorded, and set apart as the khas land of Government for the remuneration of the village officials, the headman, the patwari or karbari, if there is one, and the watchmen, if such are appointed, and will be assigned to such officers by the Superintendent to hold rent-free during their continuance in office. No headman may hold, as his remuneration, more than 25 acres of this land; but the rest of it, while unoccupied, may be placed in his charge under such temporary arrangements as the Superintendent sees fit to make. No officer shall have an indefeasible right to transfer such land, or to receive from the Government or from his successor any compensation for improvements made on the land; but the Commissioner may require a newly-appointed officer to pay to his predecessor reasonable compensation for unexhausted improvements.

KHAS MAUZAS OF CHIEFS.

47. With the sanction of the Commissioner, a Circle Chief may hold one or more mauzas in his circle as his khas mauza or mauzas, and in that case will be entitled to all the remuneration provided for the headman in addition to his remuneration as Chief, so long as he arranges properly for the performance of the duties of the headman and the mauza officers.

INVESTITURE OF THE CHIEFS AND APPOINTMENT AND DISMISSAL OF HEADMEN.

48. The investiture of the Chiefs is regulated by the Bengal Government. The headmen will be appointed by the Superintendent, in consultation with the Chiefs and the inhabitants of the mauzas, and may be dismissed by the Superintendent for misconduct or incompetence. This appointment is not hereditary; but a son, when competent, may be appointed to succeed his father.

MIGRATION AND MIGRATING DEFAULTERS AND ABSCONDERS.

49. Migration by cultivating raiyats from one circle to another, though not absolutely prohibited, is to be discouraged. No cultivating raiyat may so migrate till he has discharged all dues owed by him within the circle and mauza from which he wishes to migrate; and the Chiefs and the headmen are empowered to detain the persons and property of such intending defaulters till the orders of the Superintendent are received. An absconder will not be permitted to re-settle within the circle from which he has absconded till he discharges all the dues for which he was liable when he absconded.

LANDS REQUIRED FOR PUBLIC PURPOSES.

50. Arable land may not be settled by the headmen so as to interfere with roads or paths, or the public convenience or the requirements of Government, and any settlements made in contravention shall be summarily cancelled. When land, for which a settlement has been sanctioned, is required by Government, it will be resumed on payment of compensation.

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be exaimned in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned:—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediataly preceding the application.)

(2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination and presents himself for examination on a subsequent occasion must undergo the ful examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the fourth grade of Accountants, Public Works Department.

To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on the passed students under rules 11 and 12, even though they should obtain fully signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application is given in Appendix A. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

Two appointments annually are assigned to students holding a fully signed diploma: one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for this appointment will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Holders of fully signed Agricultural diplomas, who do not get the guaranteed appointments referred to in rule 11, but who wish to compete for the examination for admission to the Provincial, Subordinate Executive and Opium Services, may submit their names through the Principal to Government for nominations. These applications for nominations will be considered, provided the applicants appear to His Honour the Lieutenant-Governor to be otherwise suitable for admission to these services.

Each student in the Upper Agricultural Department will be required to pay an admission fee of Rs. 10.

F.E.'s who elect to join the Agricultural Department immediately after passing the F.E. examination are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (*iii*). The tuition fees for these students will be Rs. 8 a month.

Nominations.

Applicants for admission who require nominations under rule 3 (*ii*) and (*iii*) will apply for nominations through the Principal. The form of application for nomination is given in Appendix C.

CORPORATION OF CALCUTTA.

LOAN NOTIFICATION.

THE Corporation of Calcutta are prepared, with the sanction of the Governor-General in Council given under section 2 (1) of the Local Authorities (Emergency) Loans Act, 1897, to open a debenture loan for Rs. 2,25,000 (two lakhs and twenty-five thousand) on the security of the rates, taxes and dues imposed and levied under the Calcutta Municipal Act, 1899.

2. The debentures will have a currency of (10) ten years, from the 1st July, and will bear interest at the rate of 4 per cent. per annum, payable on the 1st July and the 1st January of each year.

3. The form of the debentures will be that given in the Sixth Schedule of Act III (B.C.) of 1899.

4. No debentures will be issued for any sum less than Rs. 500, and above that amount debentures will be issued only for multiples of Rs. 100.

5. Tenders for the whole or any part of the above loan of Rs. 2,25,000 will be received by the Secretary to the Corporation up to 2 o'clock P.M. on Saturday, the 12th May 1900.

6. Each tender must be made out in the form annexed to this Notification and enclosed in a sealed cover addressed to the Secretary to the Corporation and superscribed "Tender for Municipal Loan of 1900-1901"

7. Each tender must be accompanied by an earnest deposit in Government promissory notes, Calcutta municipal debentures, currency notes or cheques for not less than 3 per cent. of the amount tendered.

8. When a tender is accepted, the earnest deposit, when made in currency notes or cheques, will be held as a payment in part of the amount tendered, and will bear interest at the rate of 4 per cent. per annum from the date of acceptance of the tender, provided that the whole amount tendered is paid up in the manner hereinafter prescribed; but no debenture will issue for the amount of the earnest deposit so long as the entire amount of the tender is not paid, but debentures may be issued for each instalment paid in full, the earnest deposit not being included in any but the last instalment.

9. The earnest deposits on tenders which may not be accepted will be returned on application, and no interest will be payable on such deposits. If an allotment after being made is not taken up, or the full amount allotted is not paid as hereinafter prescribed, the earnest deposit will be forfeited.

10. The rate at which a tender is made must be specified in rupees, or rupees and annas, but not in any fraction of an anna. If a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna. A tender in which the rate is not specified in rupees or rupees and annas will be rejected as null and void.

11. The whole amount of each allotment will be divided into three instalments as follows, payable into the Bank of Bengal:—

Instalment I.—As near as possible to 40 %	payable on	25th May 1900.	
Ditto II.	Ditto	30 %	ditto 8th June 1900.
Ditto III.	Ditto	30 %*	ditto 22nd June 1900.

N.B.—The words "as near as possible" are used in this paragraph for the purpose of making each instalment an exact multiple of Rs. 100 for debentures in excess of Rs. 500.

12. Parties whose tenders are accepted will have the option of paying all or any of the instalments before the dates specified above, and will receive interest from the date of such payment.

13. Anticipation interest will be paid on all instalments from the respective dates on which such instalments are paid into the Bank of Bengal to the 30th June 1900.

14. In the case of two or more tenders at the same lowest rate accepted, a *pro rata* allotment will be made, but no such allotment will be issued if the amount thus allottable on any tender is less than Rs 500.

15. A minimum having been previously fixed, tenders will be opened by the Special Committee for loans at 2-30 P.M on Saturday, the 12th May 1900, at the Municipal Office.

A DICTIONARY OF THE ECONOMIC PRODUCTS OF INDIA.

BY DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are ready at the Office of the Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made); packing and postage, in India, 8 annas per volume; for England, Rs. 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross-references, so that little difficulty need be experienced in finding the account of a product, even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal 8vo. pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G.; Vol IV latter half of G to middle of L.; and Vol. V contains the latter half of L to end of O; Vol. VI (which consists of four parts), Part I, contains letters P to R. The whole work completed in nine volumes (including Parts II to IV of Vol. VI); but a tenth volume has been issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index is practically a Glossary of the Vernacular and European names of the plants, animals, and minerals of India, and, as such, is a work of reference, which, it is hoped, will prove of considerable value.

Index to ditto ditto, 8vo. Rs. 2. (4*s.*)

The British Admiralty has given notice (No. 182 of 1900) that a dangerous reef, indicated by a strong tidal ripple, extends from the western edge of Guinapak rocks for about 3 miles in a N.N.E. direction. The sea would probably break over this reef in bad weather.

Hope Shoals.—South buoy disappeared—Pilot hulk.

WITH reference to Notice to Mariners No 201, dated 7th October last, issued by this office, the British Admiralty has given further notice (No. 184 of 1900) that the red buoy moored $7\frac{3}{10}$ miles N. 3° E. of cape Inyack lighthouse, and marking the Hope shoals, has disappeared.

Also, that a hulk, painted black, with 3 pole masts, is moored with Inyack lighthouse bearing S. 20° E., distant 7¼ miles, and Black bluff S. 14° W.

Approximate position, lat. 25° 53′ 0″ S., long. 32° 54′ 5″ E.

Pilots can be obtained from, and discharged to, this hulk.

Also, with reference to Notice to Mariners No. 104 of 1898:—

Further information has been received that the intention to construct a lighthouse northward of Cookburn shoal has been definitely abandoned, owing to the works having been constantly washed away.

Approximate position, lat. 25° 53′ 20″ S., long. 32° 51′ 40″ E.

CHINA SEA—VEREKER BANK.

New bank reported south-west of Vereker bank.

THE British Admiralty has given notice (No. 185 of 1900) that a sounding of 32 fathoms, fine sand and blue mud, was obtained to the south-westward of Vereker bank in approximately lat 20° 40′ N., long 115° 18′ E., and another cast of 65 fathoms in approximately lat. 20° 48′ N., long. 115° 0′ E.

From this it would appear probable that another bank exists in this locality, but as the current experienced by the *Solace* was strong, and observations were not obtained when the bank was struck, its position must be considered doubtful.

This Notice affects the following Admiralty Chart:—China sea, Nos. 1263, 2661b: Also, China Sea Directory, vol. III, 1894, page 222.

Position of Flat rock.

THE British Admiralty has given notice (No. 186 of 1900) that information dated February 1900 has been received from Commander T. H. Heming, in charge of the Marine Survey of India, that the position of Flat rock, Invisible bank, as ascertained astronomically by the Indian Marine Survey, is lat. 11° 8′ 0″ N., long. 93° 29′ 15″ E., or only 1¼ miles to the westward of the position hitherto given approximately on the Charts.

The whole of Invisible bank has been surveyed, and Chart No. 825 is undergoing large corrections.

AUSTRALIA, EAST COAST—INNER ROUTE.

Shoal eastward of Howick island.

THE British Admiralty has given notice (No. 187 of 1900) that the Master of the S.S. *Karaweera* has reported that his vessel touched on a shoal with a depth of about 12 feet over it, and said to be situated with the summit of Howick island (186 feet) bearing W. by N. ½ N., distant 7½ miles. The incident occurred at night.

In 1858 H.M.S. *Megæra*, when running for an anchorage under Howick island, passed about 200 yards northward of what appeared to be a pinnacle rock on which the depth was estimated to be 6 feet, and stated to be in a position with the southern Howick island bearing W. ¾ N., distant 4½ miles. As a subsequent search failed to find this rock, it was removed from the Charts.

Although the area in the vicinity of these dangers has been recently re-examined by H. M. Surveying Vessel *Dart* without success, it would appear very probable that a shoal exists, and it has been therefore temporarily placed on the Admiralty Charts midway between the two positions and marked "Megæra P. D.," in approximately lat. 14° 33′ 10″ S., long. 145° 5′ 25″ E.

THE British Admiralty has given notice (No. 189 of 1900) of the existence of a rock with a depth of 12 feet over it at low water in the western part of Cascade cove near the anchorage where the Chart gives a depth of 15 fathoms: it is situated with the north extreme of the north point of the sandy beach (about 1¼ miles south-westward of Wales point) bearing West, distant one cable, and the extreme of the western shore of the cove in line with a peak on Long island N.E. ¼ N.

Approximate position, lat. 45° 48′ 40″ S., long. 166° 35′ 15″ E.

A black can buoy marks the position of the rock.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; t, thunder; ≤, lightning; /, strong wind; p, passing temporary showers.

IV.—That he produces a certificate of ability to ride signed by a District Officer.

3. Applications for permission to appear at the examination must be submitted, not later than one month before the date fixed, to the Magistrate of the district in which the candidate resides, stating the place at which he desires to appear for examination. Each application from class (*a*) candidates must be accompanied by a fee of Rs. 5. All candidates will be required to satisfy the conditions specified in Rule 2 above. The certificate of health should be signed either by the Civil Surgeon of the district in which the candidate ordinarily resides, or in Calcutta by one of the Professors of the Calcutta Medical College. Forms of application are available in the offices of District Superintendents of Police

The Magistrate should require a personal identification of each candidate by some known person, whose name should be recorded, and satisfy himself that the certificate* of respectability and moral character refers to the individual applying for permission to appear at the examination, and that these certificates are given by responsible and competent persons, whose opinion may be trusted. It is particularly important that candidates be of reputable parentage and antecedents. The candidate should be sent to the District Superintendent for a certificate as to physical fitness. This certificate should contain the applicant's descriptive roll, thumb impression, signature and address for purposes of identification. The District Superintendent will then obtain a health certificate, the fee for which will in all cases be Rs. 4, from the Civil Surgeon, and after seeing that all the certificates are in order send the applicant with his certificates to the Magistrate, who will, after subjecting the candidate to an examination in riding and noting the fact, grant a written permission to appear at the examination. To ensure thorough enquiry regarding a candidate's antecedents, the District Superintendent should issue verification rolls in the form prescribed in the Bengal Police Code, and the candidate should be informed that his appointment will be contingent on enquiries proving satisfactory.

BENGAL POLICE

* I hereby certify that I have known _____ for _____ years, and from my own personal knowledge of his character and disposition I am of opinion that he is a steady, well-behaved young man, and I know him to be of good moral character.

Place _____ } *Signature* _____
Date _____ } *Designation or profession* _____

As these certificates form the verification rolls of candidates, they should be very carefully examined and enquiries made when necessary. A note should be taken of the names of candidates whose certificates do not cover the period immediately preceding the examination.

The above papers with the Treasury receipt for the examination fee, which should be paid into the Treasury, will be forwarded without delay by the Magistrate of the district in which the candidate resides to the Magistrate of the centre at which the candidate wishes to be examined.

Candidates who have been permitted to appear will attend before the Examination Committee on the day preceding the examination; the place and hour of attendance should be ascertained from the Magistrate of the centre at which the candidate will appear. The Examination Committee will then compare the descriptions, thumb impressions (duplicate impressions being taken for the purpose, if necessary), and signatures, and satisfy itself about the identity of the person appearing.

At the examination a candidate will be required to sign the papers in every subject, writing his father's name and his own address on them to avoid confusion arising out of a similarity of names.

After the result of the examination is known, the certificates of passed candidates will be forwarded to the Principal of the Police Training School, Bhagalpur, and will then be treated as verification rolls

The certificates of unsuccessful candidates will be returned, if asked for, within two months, or destroyed at the end of that period

4. The subjects of examination will be as follows:—

I.—Dictation, Letter-drafting, Précis-writing, and a short translation from Bengali, Uriya or Hindi into English. Europeans and Eurasians will be allowed to choose one out of these three languages to be examined in. No candidate failing to obtain half marks in this paper will be considered qualified for appointment.

II.—Paper on general knowledge. The questions will be set so as to test the general information and intelligence of candidates.

III.—Mathematics, including Euclid, Books I—IV, Arithmetic and Algebra, and account-keeping.

IV.—Law, including the Penal Code, the Criminal Procedure Code, and the Evidence Act.

N.B.—Class (*b*) candidates will be exempted from passing in Euclid and Algebra, alternative questions in Arithmetic being given.

5. The marks will be given on the following scale :—

1.	Dictation and language	200
2.	General knowledge	200
3.	Mathematics	200
4.	Law	200

6. The number of appointments which will be offered for competition at each centre will be notified later.

7. After the results of the examination have been ascertained, a list will be prepared of the candidates selected for appointment. Those who have not obtained half marks in dictation and language and one-third marks in the aggregate of the remaining papers may be struck out as ineligible for appointment. Of the remaining candidates, a list will then be composed as follows:—(*a*) one-half of the candidates who stand highest on the list in order of merit; (*b*) one-half of candidates selected from among those candidates who have obtained not less than one-third of the marks. At least two-thirds of the appointments will, if qualified candidates are available, be given to outsiders.

8. Natives of Bengal Proper will be eligible for appointments in all districts where Bengali is the vernacular of the district. Natives of Bihar will be eligible for appointments in districts where Hindi is the vernacular, and natives of Orissa for appointments in districts where Uriya is the vernacular. Selected candidates will be liable to be transferred to any district.

9. Selected candidates on appointment will undergo a 20 weeks' course of instruction at the Bhagalpur Police Training School. This course will include drill, elementary surveying, anthropometry, and instruction in prosecuting cases in Magistrates' Courts. At the end of the 20 weeks all probationers obtaining a certificate of proficiency will be posted to districts and receive appointments in due course as 5th grade Sub-Inspectors. During the period of probation candidates will receive Rs 20 a month as salary; on being passed out of the Training School, they will receive Rs. 30 a month as salary. Candidates who fail to display due diligence during their period of probation will be liable to lose their appointments.

10. The position of selected candidates in the Range lists from which promotions are made will be determined by the places obtained by candidates at the final examination held at the conclusion of the Training School term.

11. Candidates resident in any of the districts of the Patna, Bhagalpur, and Chota Nagpur Divisions, who take up Hindi at this examination, will be considered to be natives of Bihar. Candidates competing at Cuttack who take up Uriya will be considered natives of Orissa.

12. Information as to the hour and place of examination can be obtained 15 days before the examination by applying to the District Magistrate of the 24-Parganas, Dacca, Patna, and Cuttack.

Offg. Chief Secy. to the Govt. of Bengal.

CHINA SEA—VEREKER BANK.

New bank reported south-west of Vereker bank.

THE British Admiralty has given notice (No. 185 of 1900) that a sounding of 32 fathoms, fine sand and blue mud, was obtained to the south-westward of Vereker bank in approximately lat 20° 40′ N., long 115° 18′ E., and another cast of 65 fathoms in approximately lat. 20° 48′ N., long. 115° 9′ E.

Position of Flat rock.

THE British Admiralty has given notice (No. 186 of 1900) that information dated February 1900 has been received from Commander T. H. Heming, in charge of the Marine Survey of India, that the position of Flat rock, Invisible bank, as ascertained astronomically by the Indian Marine Survey, is lat. 11° 8′ 0″ N., long. 93° 29′ 15″ E., or only 1¼ miles to the westward of the position hitherto given approximately on the Charts.

The whole of Invisible bank has been surveyed, and Chart No. 825 is undergoing large corrections.

AUSTRALIA, EAST COAST—Inner route.

Shoal eastward of Howick island.

The British Admiralty has given notice (No. 187 of 1900) that the Master of the S.S. *Karaweera* has reported that his vessel touched on a shoal with a depth of about 12 feet over it and said to be situated with the summit of Howick island (186 feet) bearing W. by N. ½ N., distant 7½ miles. The incident occurred at night.

In 1858 H.M.S. *Megæra*, when running for an anchorage under Howick island, passed, about 200 yards northward of what appeared to be a pinnacle rock on which the depth was estimated to be 6 feet, and stated to be in a position with the southern Howick island bearing W. ¾ N., distant 4½ miles. As a subsequent search failed to find this rock, it was removed from the Charts.

Although the area in the vicinity of these dangers has been recently re-examined by H. M. Surveying Vessel *Dart* without success, it would appear very probable that a shoal exists, and it has been therefore temporarily placed on the Admiralty Charts midway between the two positions and marked "Megæra P. D.," in approximately lat. 14° 33′ 10″ S., long. 145° 5′ 25″ E.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·2 lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew Standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain; t, thunder; p, passing temporary showers; ≤, lightning; strong wind

N.B.—In the column "miles recorded" the movement of the wind from 8 A.M. of the day for which it is shown to 8 A.M. of the following day is given.

THE yearly examination of candidates for fourth grade of Accountants, Public Works Department, will be held at the Civil Engineering College, Sibpur, on Monday and Tuesday the 2nd and 3rd July 1900, at 10-30 A. M.

SUBJECTS.	Full marks.	Minimum pass marks.
Writing (neatness, clearness, and rapidity) ...	100	50
Dictation (spelling, punctuation, etc.)	100	50
Arithmetic (the whole)	240	160
Mensuration (*a*) the whole	60	30
Book-keeping (*b*) mercantile	100	50
Total ...	600	...

Minimum required in all papers collectively, 400.

(*a*) Todhunter's Mensuration for Beginners.
(*b*) "Book-keeping" by Ball and Hamilton.
"Book-keeping" by double and single entry, by W. Inglis (Chambers' Educational Course).

The examination is held annually at the Civil Engineering College, Sibpur, on the 1st Monday in July. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. The examination will be *ipso facto* vitiated if it be not held (begun and completed) on the dates fixed; but the officer who will conduct the examination may make his own arrangements in regard to the *place* and *hour* of examination with the candidates.

Candidates will not be examined in any of the Calcutta offices.

A candidate already in permanent Government employ* may be allowed to compete in the examination even if he is more than 25 years of age, and may be appointed to an accountantship if he passes it; but if he is not already in pensionable service, he will be eligible only for appointment to the non-pensionable establishment on State Railways.

* This term includes employment under Local Boards and foreign bodies if such is pensionable by the British Government.

2. The candidate should apply to an Examiner of Public Works Accounts not later than 30 days previous to the date fixed for the examination and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must bear the address of the candidate, must be accompanied by a fee of Rs. 10 and the following certificates, and must be forwarded by him, not direct to the Principal, but through the Examiner.

Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but none will be returned :—

(1) Certificate of good character signed by applicant's immediate official superior, or by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediataly preceding the application.)

(2) Certificate of age (baptismal or of birth not required if the candidate is already in permanent Government employ).

(3) Certificate that the application is in the candidate's hand-writing.

NOTE.—A candidate already in Government service should, in like manner, submit his application through his immediate official superior to an Examiner of Accounts qualified to hold the particular examination, and should state whether he desires to be examined at the office of the Examiner of Accounts concerned or at the College.

It will rest with the Examiner of Accounts, to whom the candidate submits his application, to decide, on a consideration of the certificates submitted, whether the candidate should be allowed to appear for the examination or whether his application should be rejected. The Examiner of Accounts will then forward to the Principal for registration the names of the accepted candidates. The names of these candidates should be entered in a statement showing their ages and their addresses, and also showing where each candidate is to be examined, whether at the College or at the office of the Examiner of Accounts. This statement, together with the fees, should be transmitted to the Principal not later than 15 days after the dates fixed in paragraph 2 for the submission of applications of candidates.

3. Examination papers that are issued for examination need not be returned.

4. Each examination is complete in itself. A candidate who has failed in an examination and presents himself for examination on a subsequent occasion must undergo the ful examination and furnish fresh fee and certificates.

5. Passed candidates should apply, not to the Principal of the College, nor to the Accountant-General, Public Works Department, but direct to the Examiner of Public Works Accounts in the province or railway under whom they may desire to be employed.

6. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

7. The Civil Engineering College acts solely as an examining body in reference to admission to the fourth grade of Accountants, Public Works Department.

AGRICULTURAL DEPARTMENT.

Session 1900-1901.

UPPER CLASS.

FOR admission to this class, an applicant must have one of the following qualifications:—

(*i*) He must have passed the F.E. examination of the Calcutta University and be under 23 years of age, but no student will be allowed to join the Agricultural class after the expiration of five years from admission into the Engineering College.

(*ii*) He must have passed the B.A. examination of the Calcutta University by the B Course, or possess other sufficient educational qualifications, be under 23 years of age, and in addition have received a nomination from the Bengal Government.

(*iii*) He must have had a general education qualifying him to follow the instruction in the Upper Agricultural class, and must also receive a nomination from Government for admission as a special student. To be eligible for a nomination under this rule, a candidate must either have landed property of his own, or be recommended by some influential landholder who desires to train him to take part in the management of his estate, or he must otherwise satisfy Government that he intends to make practical use of his agricultural training. Students entering under this rule will be termed Special Agricultural students. They will not be subject to any maximum limit of age, but will not be entitled to the privileges conferred on the passed students under rules 11 and 12, even though they should obtain fully signed diplomas in due course after passing the necessary examinations.

Every candidate for admission to this Department must apply in writing to the Principal not later than the 14th July. The form of application is given in Appendix A. In the event of the form not being properly filled up and accompanied by the necessary certificates, no notice will be taken of the application.

The number to be nominated each year will depend on the accommodation available.

Every applicant, not already a student of the College, must undergo a medical examination by the College Surgeon before admission to this Department. If this officer's report is unsatisfactory, the applicant will not be admitted.

The session begins on the 5th November. The course of instruction in the Upper Agricultural class will extend over two years.

Senior scholarships held by students when passing the F.E. examination are tenable in the Agricultural Department.

One graduate scholarship of Rs. 30 a month, tenable for one year, will be awarded on the result of the examination held at the end of the first academic year.

Two appointments annually are assigned to students holding a fully signed diploma: one in the Provincial Executive Service and one in the Subordinate Executive Service. The right of selection for this appointment will rest with Government, and the students who gained the highest marks at the examination for diplomas will not necessarily be selected.

Holders of fully signed Agricultural diplomas, who do not get the guaranteed appointments referred to in rule 11, but who wish to compete for the examination for admission to the Provincial, Subordinate Executive and Opium Services, may submit their names through the Principal to Government for nominations. These applications for nominations will be considered, provided the applicants appear to His Honour the Lieutenant-Governor to be otherwise suitable for admission to these services.

Each student in the Upper Agricultural Department will be required to pay an admission fee of Rs. 10.

F.E.'s who elect to join the Agricultural Department immediately after passing the F.E. examination are exempted from the payment of this fee, as their names are already borne on the College books.

For the present no tuition fees will be charged to students in the Agricultural Department, except in the case of those joining as special students under rule 3 (*iii*). The tuition fees for these students will be Rs. 8 a month.

Nominations.

Applicants for admission who require nominations under rule 3 (*ii*) and (*iii*) will apply for nominations through the Principal. The form of application for nomination is given in Appendix C.

Further particulars will be supplied on application to the Principal.

Simla, the 11th May 1900.

No. 1257.—The Royal Warrant for the institution of the Kaisar-i-Hind Medal is, by the direction of His Excellency the Viceroy and Governor General, published for general information:

VICTORIA BY THE GRACE OF GOD OF THE UNITED KINGDOM OF GREAT BRITAIN AND IRELAND QUEEN, DEFENDER OF THE FAITH, EMPRESS OF INDIA.

To all to whom these presents shall come.

Greeting.—WHEREAS We, taking into Our Royal consideration that there do not exist adequate means whereby We can reward important and useful services rendered to Us in Our Indian Empire in the advancement of the public interests of Our said Empire, and taking also into consideration the expediency of distinguishing such services by some mark of Our Royal favour: Now for the purpose of attaining an end so desirable as that of thus distinguishing such services aforesaid, We have instituted and created, and by these presents for Us, Our Heirs and Successors, do institute and create, a new Decoration,—to be designated as hereinafter described,—and We are graciously pleased to make, ordain, and establish the following Rules and Ordinances for the Government of the same which shall from henceforth be inviolably observed and kept:

Firstly.—It is ordained that this Decoration shall henceforth be styled and designated "The Kaisar-i-Hind Medal for Public Service in India."

Secondly.—It is ordained that any person without distinction of race, occupation, position, or sex, shall be eligible for this Decoration who shall have distinguished himself (or herself) by important and useful service in the advancement of the public interest in India.

Thirdly.—It is ordained that there shall be two classes of the Decoration to be styled respectively "The Kaisar-i-Hind Medal for Public Service in India" of the First Class, and "The Kaisar-i-Hind Medal for Public Service in India" of the Second Class.

Fourthly.—It is ordained that awards of the Medal of the First Class shall be made by Us, Our Heirs and Successors, by Warrant under Our Sign Manual and countersigned by One of Our Principal Secretaries of State, and such awards shall only be made on a recommendation to Us by Our Secretary of State for India.

Fifthly.—It is ordained that awards of the Medal of the Second Class shall be made by Our Governor-General of India for the time being.

Sixthly.—It is ordained that the Medal shall consist of an oval shaped Badge or Decoration—in gold for the First Class and in silver for the Second Class—with Our Royal Cypher in the centre on one side and on the reverse the words "Kaisar-i-Hind for Public Service in India," and that it shall be suspended on the left breast by a dark blue ribbon.

Seventhly.—It is ordained that the names of those persons to whom a Medal of either class may be awarded shall be published in the *Gazette of India* and in the Gazette of the Local Government under the jurisdiction of which the service was rendered, and shall be entered in all Civil and Official lists, and that a registry of such names shall be kept in the Office of the Home Department of the Government of India.

Eighthly.—It is ordained that if any one, after having received either of the Medals, again renders such service as, if he had not received such Medal, would have entitled him to it, such further service shall be recorded by a bar attached to the ribbon by which the Medal is suspended: and for every such additional service an additional bar may be added.

Ninthly.—In order to make such additional provisions as shall effectually preserve pure this honourable Decoration, it is ordained that if any person on whom the Medal of the First Class is conferred be guilty of any crime or disgraceful conduct which in Our Judgment disqualifies him for the same, his name shall, by an especial Warrant under Our Sign Manual, to be countersigned by One of Our Principal Secretaries of State, be forthwith erased from the lists of those upon whom the said Decoration shall have been conferred and his Medal forfeited and returned to Us, Our Heirs and Successors: and in the case of those who have been awarded Medals of the Second Class, such erasure of their names from the lists of those upon whom the said Decoration shall have been conferred and forfeiture of their Medals shall be effected under the Order of Our Governor-General of India for the time being, to whom their Medals shall be returned. And every person to whom the said Medal is given shall, before receiving the same, enter into an engagement to return the same, if his name shall be erased as aforesaid.

Provided that We, Our Heirs and Successors, shall at all times have power to restore the Medal of the First Class to any person who may have been deprived of it when circumstances render such restoration just and expedient, and that in like circumstances Our Governor-General of India for the time being shall have power by his Order to restore the Medal of the Second Class to any person who may have been deprived of it.

Lastly.—We reserve to Ourselves, Our Heirs and Successors, full power of annulling, altering, abrogating, augmenting, interpreting, or dispensing with these Regulations or any part thereof by a Notification under Our Royal Sign Manual.

1. No connection of houses, holdings or lands with the Municipal water-supply mains or pipes or existing private pipes shall be made without the written permission of the Municipal Commissioners previously obtained.

2. The Municipal Commissioners may allow connections, so long as the supply permits, for domestic purposes only under the following conditions:—

16. The Municipal Commissioners reserve to themselves the right, in case of necessity to restrict the hours during which water will be available.

17. When a holding has already a water connection and a stop-cock and the owner or occupier of such holding refuses to deliver up the key of the stop-cock to the Municipal Commissioners, and give free access to the stop-cock, when it is within the premises, to the officer of the Municipality, the Commissioners may cut off the water from the holding by a stop-cock of their own until such time as the owner or occupier pays all expense incurred by the Municipality.

18. When an existing connection with a holding has no stop-cock attached to it, the owner or occupier of such holding shall provide a stop-cock and necessary fittings, and deliver over the key to the Municipal Commissioners. Should he decline to do this, the Municipal Commissioners may put on a stop-cock and cut off the water from the holding until the owner or occupier refunds the Municipal Commissioners all expenses incurred in affixing the stop-cock.

Guinapak rocks—Extension of a dangerous reef.

THE British Admiralty has given notice (No. 182 of 1900) that a dangerous reef, indicated by a strong tidal ripple, extends from the western edge of Guinapak rocks for about 3 miles in a N.N.E. direction. The sea would probably break over this reef in bad weather.

CHINA SEA—VEREKER BANK.

New bank reported south-west of Vereker bank.

THE British Admiralty has given notice (No. 185 of 1900) that a sounding of 32 fathoms, fine sand and blue mud, was obtained to the south-westward of Vereker bank in approximately lat. 20° 40′ N., long. 115° 18′ E., and another cast of 65 fathoms in approximately lat. 20° 48′ N., long. 115° 9′ E.

From this it would appear probable that another bank exists in this locality, but as the current experienced by the *Solace* was strong, and observations were not obtained when the bank was struck, its position must be considered doubtful.

AUSTRALIA, EAST COAST—Inner route.

Shoal eastward of Howick island.

The British Admiralty has given notice (No. 187 of 1900) that the Master of the S.S. *Karaweera* has reported that his vessel touched on a shoal with a depth of about 12 feet over it and said to be situated with the summit of Howick island (186 feet) bearing W. by N. ½ N., distant 7½ miles The incident occurred at night.

In 1858 H.M.S. *Megæra*, when running for an anchorage under Howick island, passed, about 200 yards northward of what appeared to be a pinnacle rock on which the depth was estimated to be 6 feet, and stated to be in a position with the southern Howick island bearing W. ¾ N., distant 4½ miles. As a subsequent search failed to find this rock, it was removed from the Charts.

Although the area in the vicinity of these dangers has been recently re-examined by H. M. Surveying Vessel *Dart* without success, it would appear very probable that a shoal exists, and it has been therefore temporarily placed on the Admiralty Charts midway between the two positions and marked "Megæra P. D.," in approximately lat. 14° 33′ 10″ S., long. 145° 5′ 25″ E.

Receipts.

2. *Part I.—Jetties.*—The receipts are estimated at Rs. 1,80,000 more than those of the preceding year. The increase is under the heads "jetty charges," "petroleum wharf" and "tea warehouse."

3. *Part II.—Inland Vessels Wharves.*—The receipts are estimated at Rs. 15,000 more than those of the previous year and are based on actuals.

4. *Part III.—Strand Bank Lands.*—There is an increase of Rs. 9,000 in the estimated receipts, as compared with those of the previous year. The increase is based on actuals.

5. *Part IV.—Port or Harbour Master's Department.*—The receipts are estimated at Rs. 15,186 less than those of the previous year. The decrease which is based on actuals is under the heads "mooring hire" and "receipts from Moyapore magazine."

6. *Part VI.—Railway.*—The earnings are estimated at Rs. 20,000 more than those of the preceding year, and the increase is under the head "Railway." The figures for Shalimar Branch line remain the same as last year.

7. *Part VII.—Port Approaches.*—There is a falling off in the receipts by Rs. 6,860 as compared with those of last year, which is due to less receipts from interest on securities which will have to be sold to cover the cost of purchasing the *Retriever* in order to replace the *Resolute* which was lost at Diamond-Harbour in August last.

8. *Part VIII.—Kidderpore Docks.*—The following figures exhibit the receipts under this head:—

	Rs.
Receipts from graving docks	1,55,000
Ditto landing charges on imports	30,000
Ditto shipping charges on exports	14,30,000
Ditto terminal charges	1,40,000
Ditto hire of wagons	40,000
Ditto rent and miscellaneous	31,000
Proportion of receipts from towing vessels by hopper barges	1,500
Total ...	18,27,500

As compared with the year 1899-1900 there is a net falling off in the receipts by Rs. 44,000. The gross decrease, which amounts to Rs. 90,000, falls under the heads of "Landing charges on imports," "Shipping charges on exports" and "Terminal charges." The decrease under landing charges on imports is explained to be due to the Salt golahs being full up causing a restriction in the imports for the year, while the landing of other imports is only allowed under very special circumstances.

The decrease under "Shipping charges on exports" and "Terminal charges" is due to the receipts of last year having been over-estimated. The receipts of the current year are based on the actuals for nine months of last year with an allowance of Rs. 3,00,000 for an increase of traffic. There is an increase of Rs. 46,000 under the heads "Receipts from graving Dock," "Hire of Wagons" and "Rent and Miscellaneous."

9. *Special Tolls.*—The estimated receipts from the special toll amount to Rs. 10,00,000 and have been based on 9 months' actuals for 1899-1900.

EXPENDITURE.

10. *Part I.—Jetties.*—The expenditure estimated amounts to Rs. 13,05,657 against Rs. 12,65,941 of the preceding year. The largest item of increase is under the head of "Repairs."

11. *Part II.—Inland Vessels Wharves.*—In the estimate for the last year Rs. 4,79,614 were provided for against Rs. 4,80,355, the estimate for the year under review. The largest items of increase are under heads "Salaries" and "Working Expenses."

12. *Part III.—Strand Bank Lands.*—There is a small net increase of Rs. 507 which is on account of an increase of "Salaries."

13. *Part IV.—Harbour Master's Department.*—Under this head also there is a slight increase, viz., of Rs. 462. This is the net increase, but the chief increase is under the head "Salaries," and the largest item of decrease under the head "Repairs &c., for Moyapore Magazine."

14. *Part VI.—Railway.*—The estimate for the year under review provides for Rs. 4,03,641 against Rs. 3,80,216, of the preceding year, or a net increase of Rs. 23,425, which is chiefly under the heads "Salaries" and "Working Expenses." Under the former head the increase is due to raising the wages of gatemen and to the employment of additional gatemen, and under the latter head to an increased provision for repairs to locomotives and wagons, to maintenance of railway and to part salary of an Assistant Permanent-way Inspector.

15. *Part VII.—Port Approaches.*—There is a net increase of Rs. 6,630, as compared with the estimate of the previous year. The only item that shows an increase is under head "salaries of officers and crew," while there

are decreases under other heads, the principal item of decrease being under head "repairs to vessels."

16. *Part VIII.—Kidderpore Docks.*—The amount provided for in the Budget of 1899-1900 was Rs. 29,11,232, while that provided for in the Budget for the year under review is Rs. 31,36,901 or a net increase of Rs. 2,25,669. The chief items of increase are under heads "Interest and Sinking Fund on loans" Rs. 1,28,817, "Salaries of Traffic Establishment" Rs. 22,343, "Working expenses" Rs. 51,632 and "Repairs to buildings" Rs. 20,000. While the receipts show a net decrease of Rs. 44,000, the expenditure shows a net increase of Rs. 2,25,669. The cause of decrease in receipts has been explained in paragraph 8 of this Resolution.

CAPITAL ACCOUNT.

17. As noticed in the first paragraph, the estimates take into account the receipts and charges under Capital.

The receipts which amount to Rs. 48,00,000 are made up as follows:—

	Rs.	Rs.
Contributions from revenue	1,20,110	
Stock charged to works	5,00,000	
		6,20,110
Sale of land at Shalimar for the use of the Bengal-Nagpur Railway	9,81,045	
Loss amount received to end of 1900-1901 ...	7,50,000	
		2,31,045
Probable balance of Capital Fund on 1st April 1900	.....	4,98,845
Debenture loan to be raised during 1900-1901 ...	25,50,000	
Ditto ditto ...	9,00,000	
		34,50,000
Total ...		48,00,000

Of the debenture loans of Rs. 34,50,000, the first loan of Rs. 25,50,000 will be under an existing sanction of the Government of India, but the second loan of Rs. 9,00,000 is to be a new loan for which the Commissioners will have to obtain sanction.

18. The Capital budget provides for an expenditure of Rs. 48,00,000 on works in progress and proposed.

The works proposed for which no sanction has yet been accorded are—

	Rs.
200 additional wagons	5,00,000
4 locomotives	1,00,000
3 spare boilers	24,000
Additional sheds for docks	2,00,000
Minor works	1,51,175
Total ...	9,75,175

19. Subject to the above remarks, the Lieutenant-Governor, in pursuance of the powers vested in him by section 71 of Act III (B.C.) of 1890, approves of the estimate of the Income and Expenditure of the Commissioners for the year 1900-1901.

By order of the Lieutenant-Governor of Bengal,

D. B. HORN,

Offg. Secy. to the Govt. of Bengal.

FINAL REPORT ON THE WHEAT CROP OF BENGAL, 1899-1900.

THE following is published for general information.

F. A. SLACK,

The 13th May 1900. *Offg. Secy. to the Govt. of Bengal.*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL.

Final Report on the Wheat Crop of Bengal, 1899-1900.

Explanatory.—The present report furnishes estimates of the area and outturn of the wheat crop in all the wheat-growing districts of Bengal, and gives some statistics of the exports of wheat from these districts to Calcutta during the past year.

As in previous years, a summary is also given in the report of the harvests of the year 1899-1900, and an abstract statement is annexed to it of reports received from District Officers on the subject of the fluctuations in the prices of food-grains during the year, and of the present condition of the stock of food-grains in each district.

The district returns have been compiled in the same form as that used for the preliminary forecast. In future, this form will be adopted for all crop forecasts issued by this Department, and, as in the present report, a subsidiary statement will be added giving an estimate of the total outturn expected from the crops dealt with. This change in form has been made in consultation with the Director-General of Statistics and the Chamber of Commerce, and with the approval of Government, and will, it is hoped, ensure greater accuracy in the returns by securing greater simplicity.

2. *Character of the season.*—The season was less favourable in the year under report than in the previous year. There was no repetition of the high floods, which proved so beneficial to the wheat crop of 1898-99. Want of rain was also felt at the time of sowing in some districts, noticeably in those of the Chota Nagpur Division, and this led to a contraction in the area sown. The rainfall in September was general, except in Orissa and Chota Nagpur, where it was insufficient. In October, it was deficient everywhere, except in East Bengal and Orissa, where it was excessive.

In November and December there was scarcely any rain in the wheat-growing districts, excepting a few light showers in the Darjeeling hills In January, the rainfall was below the normal in all parts of the Province, except in Bihar and Chota Nagpur, where the fall was about four times the average for the month. The rain this month was accompanied by hail, which did considerable damage in some parts of Bihar. In February, the rainfall was above the normal in Lower Bengal and below the normal in Bihar, Orissa and Chota Nagpur. In March, the fall was fairly general in all parts of Bengal. The season on the whole was not favourable to the wheat crop. The rainfall was irregular and badly distributed, and in a few districts the crop suffered also from hailstorms.

3. *Area sown.*—Since the submission of the preliminary forecast, new estimates of the normal area have been received from Jessore, Patna, Darbhanga and Bhagalpur and thus the total normal area is now shown as 1,580,700 acres, against 1,578,100 acres shown in the preliminary forecast. Last year's and this year's figures have also been revised in some cases. The total area cultivated in wheat in 1899-1900, as now estimated by District Officers, amounts to 1,555,800 acres, against 1,582,500 acres estimated to have been cultivated in the previous year. The decrease, as reported in the preliminary forecast, is due to unseasonable weather at the time of sowing. This year's area, however, is more than the average of the past six years, and is but slightly below the normal.

4. *Outturn.*—The crop appears to have deteriorated in 15 districts since the publication of the preliminary forecast. In 16 districts, the estimates remain unchanged, and in five districts only, viz., Birbhum, Champaran, Darbhanga, Purnea, and Manbhum, has the outturn exceeded the original estimate. The general outturn for the Province has fallen somewhat short, therefore, of that foreshadowed in the preliminary forecast, and may now be estimated as 95 per cent. of a normal crop. This estimate falls short of that of the crop of the previous year by 10 per cent. The gross outturn of 1899-1900 is estimated at 572,600 tons, against 656,400 tons estimated for the crop of 1898-1899.

5. *Summary of harvests.*—The following brief account of the harvests of the year 1899-1900 has been summarized from the marginally-noted reports published by this Department.

(1) Final Report on the *bhadoi* crops in Bengal, 1899, dated the 19th December 1899.
(2) Final Report on the winter rice crop in Bengal, 1899, dated the 4th December 1899.
(3) Note on the outturn of the *rabi* crops in Bengal for 1899-1900, dated the 2nd April 1900.

Bhadoi or autumn crops.—The season was altogether unfavourable to the *bhadoi* crops, the rainfall being both excessive and badly distributed. In a few districts, the crops also suffered from insect pests. The total area cultivated in all kinds of *bhadoi* crops amounted to 15,584,000 acres, as compared with 16,312,100 acres, estimated to have been cultivated in 1898. The area under *bhadoi* food-crops showed a decrease of 799,500 acres, whilst the area under *bhadoi* non-food-crops showed an increase of 71,500 acres, the latter result being mainly due to the extended cultivation of jute. The final estimate of the actual outturn of all kinds of *bhadoi* crops was 70 per cent. of a normal crop.

Winter rice.—Although the rainfall was generally excessive and unevenly distributed, the outturn was fair, and it is estimated that a 95 per cent. crop was harvested in the Province as a whole. The total area cultivated amounted to 31,326,600 acres, against 31,568,300 acres returned for the crop of the previous year. The decrease was chiefly due to excessive rain at the time of transplantation in low-lying areas, and also, to a small extent, to the cultivation of jute in lands sown in the previous year with rice.

Rabi or cold-weather crops.—The season just closed was not on the whole favourable to the *rabi* crops, and was disastrous to them in parts of Chota Nagpur. The area cultivated in all kinds of *rabi* crops was returned as 13,840,000 acres, as compared with 14,390,300 acres sown in 1898-99. The area under *rabi* food-crops was estimated at 10,036,000 acres, against 10,278,000 acres in the previous year, and that under *rabi* non-food-crops at 3,804,000 acres, as compared with 4,112,300 acres. The decrease in all cases was due to want of sufficient rain at the time of sowing. The outturn of the *rabi* crops was returned as 87 per cent. of a normal crop.

Taking all the harvests of the year together, it would thus appear that the produce of food-grains has fallen slightly below the normal. Angul and the Khondmals and the districts of Chota Nagpur (excepting Manbhum) suffered most from the unseasonable weather, while the outturn of all crops in Shahabad was also poor.

6. *Food stocks and prices of food-grains.*—After the good harvest of the winter rice crop of 1898, prices which, at the beginning of that year, ruled higher than the normal, fell considerably. During the year under report, they rose again in some districts, owing partly to the export of food-grains to the famine-stricken provinces and partly, though to a very small extent, to the failure of the local crops.

Taking the Province as a whole, however, the rise was barely appreciable. The year's supply of food-grains is reported to have fallen short of the average in Chota Nagpur, Orissa and in some districts of Bihar, but the stocks of previous harvests are yet generally plentiful, so that, in spite of slightly deficient harvests in the current year, the Province as a whole has at present plenty of food stuff in hand.

7. *Exports of wheat to Calcutta.*—From the reports received from District Officers, as well as from the trade statistics given in the margin, it is evident that there has been a considerable increase during 1899 of the exports of wheat to Calcutta from Bengal and Bihar. This is, no doubt, chiefly due to the excellent wheat crop reaped in the beginning of the year 1899, and to the rise in prices caused by the scarcity in other parts of India. Although, in ordinary circumstances, a decrease is anticipated in the current year's exports from Bengal and Bihar, as compared with those of last year, there is every reason to hope that that decrease will be small.

Imports of wheat into Calcutta from the calendar years 1890 to 1899.
